

Weekly Activity and Progress Report – CS 440 Group 5 for Week 8

Group Members: Esat Duman, Kent Lizardo, Jonathan Juarez, Jose Tejada

Weekly In-Person Review Meeting

- When: Wednesday Feb. 28th @ approx. 2pm
- Where: Outside of Lecture Center C
- Missing (why) : N/A
- Late (why) : N/A

Recent Progress

- Esat: Worked on the frontend of our project and working with groupmates to familiarize myself with React.JS and why changes were made for certain areas of the project. Coding certain parts of the UI for a more aesthetic look.
- Kent: Find example implementations on unique usernames feature suggested by Esat. Researched better ways to organize Firebase data.
- Jonathan: Spent some time going over part 1 of our dev. Project report and took note of things to add/improve for the next deliverable. Spent some time organizing JIRA and going over new code pushed to repo by groupmates.
- Jose: Looked at new additions added by team on GitHub. Started to research on ways to implement our planned improvements on coding project before second demo.

Current Action Items (Work In Progress)

- Esat: Completing the Dashboard of our project so kent can handle the backend part of the project. Helping groupmates working on the report so we can be prepared our new developments and improvements we have accomplished from last time.
- Kent: Finish Create-A-Space and Space List connection to Firebase. Implement unique usernames.
- Jonathan: Start to format part 2 of the dev. Project report so we can get a head start on it. Continue to meet with groupmates to continue making progress towards reaching our goals set in the second scenario for our coding project.
- Jose: Revise JIRA based on our second scenario. Start on implementation of new features for coding project.
