Weekly In-Person Review Meeting

- When: Wednesday April 3rd, @ approx. 2pm
- Where: Outside of Lecture Center C
- Missing (why) : N/A
- Late (why) : N/A

Recent Progress

- Esat: posted a new story regarding the logout button being displayed on the home page for the user. Giving feedback to team members on the recent progress we made and what we need to focus on next like listing locations on the Google Maps API and working on the home page design to make it more appealing to the user.
- Kent: Decoupled Guide accounts from user table in current workspace.
- Jonathan: Updated JIRA sprints and stories post demo/release 2. Started setting up final reports for dev and coding projects.
- Jose: Researched different implementations for different sections of our coding project.

Current Action Items (Work In Progress)

- Esat: Currently need to start creating a queue for the locations the user will submit to the web app when he/she finds a silent space. Making the website look more professionally design wise.
- Kent: Refactor to set it up as per-application basis. Migrate current database. Implement Check-in feature suite.
- Jonathan: Need to start working on our presentations for both projects, and setting up the template for our final reports. Keep checking JIRA and marking off stories.
- Jose: Start on the final part of our coding project report. Add/edit JIRA stories. Work on presentations for our projects.
